

A sunburst chart illustrating the hierarchical distribution of PAM08_b across brain regions. The chart is divided into three main categories in the inner ring: MB (blue), Outside-MB (red), and SMP(R) (light red). The outer ring further subdivides these categories into specific regions: KCg (purple) under MB, CRE(L) (orange) under Outside-MB, CRE(R) (light orange) under Outside-MB, and DPM (dark blue), MBON30 (green), and PAM07 (light green) under SMP(R).
